

Functional Block

Key Features

- Can be used for mostly anything - step, bench, agility or carrying
- Rubber material gives the block a slight give and bounce, making it less likely to damage floors
- One-piece construction with built in handles provides easy maneuverability
- Weight: 25kg for each block
- Dimensions: 610 x 350 x 230mm (L x W x H)

Product Description

This 25kg Functional Block can be used for anything from step-up, bench, agility drills and carrying. The blocks are a diverse tool and feature ridges at each end allowing the blocks to align when they are used in lines of more than one. The Functional Block also features inset handles which makes moving the blocks safe and easy.
