The Origin T22.2 offers the perfect combination of fashion, function and innovation. The T22.2 has all the features and design elements users have come to expect from their high end treadmill. From it's integrated, high-definition 18.5 inch touchscreen with multiple built in entertainment options, to a wide-open solid frame design.

Every control is ergonomically designed and is within easy reach for the users convenience. The treadmill belt is driven by a powerful four horsepower AC drive motor controlled with an advanced inverter. The T22.2 is not only designed for enhancing your personal entertainment needs but it also offers a comfortable and reliable running experience.
