High Impact Tile

The Origin 40mm High Impact Tiles are suitable for almost any gym environment. This product has been specifically designed for free-weights and strength & conditioning spaces to offer maximum impact absorption where there is a high chance that weights will be dropped to the ground.

Suitable for high footfall and free weights spaces

Can be used as weightlifting platform drop zones

Available in 12 colours

100% recycled rubber.

CAP System compatible

High Impact Tile

Classic

CAP

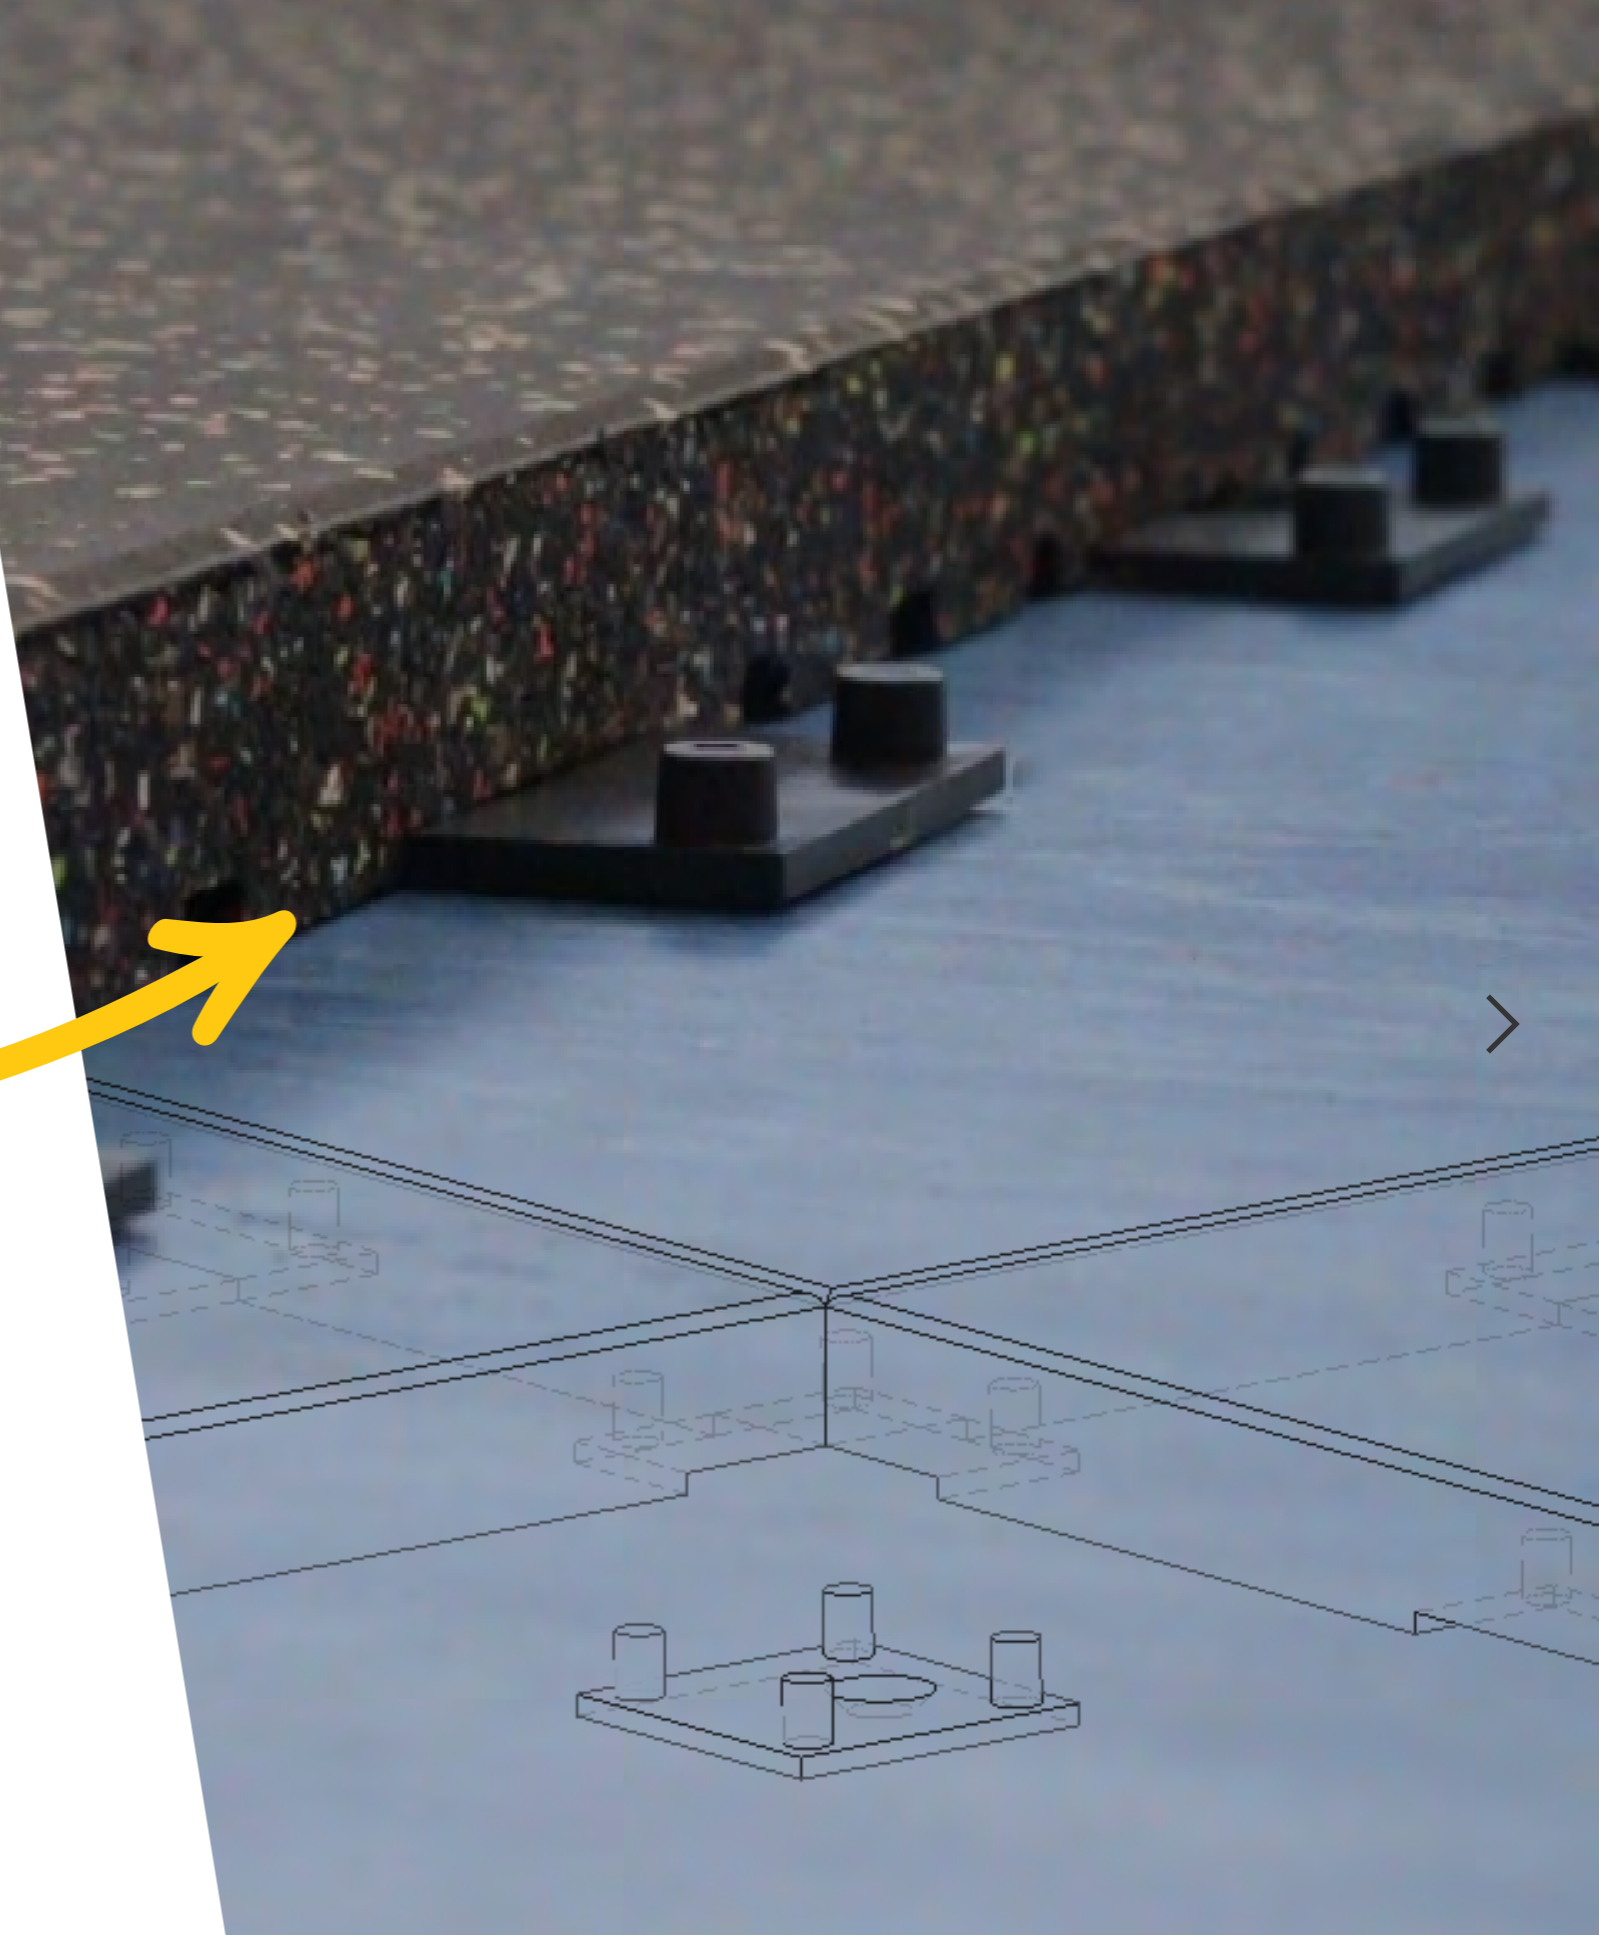

S Y S T E M

Each Origin Fitness tile accommodates our connection anchor plates. Each tile can accommodate up to 12 anchor points. Connecting the tiles like this reduces any individual tile movement. Each tile comes with four central and 2 outer connectors as standard.

Connection Anchor Plate System

Using the CAP System will allow you to loose lay and save costs on bonding.

SKU	OF-CY-PFT20-JPP-15mm-l
Included	A pack of 8 CAPS (6 x 4 stud, 2 x 2 stud)

Single Fleck

Performance+ Oly System

The Performance+ OLY Flooring System is a heterogenous flooring solution that consists of a 10mm premium flooring roll as the top layer and 10mm Origin Underlay as the base layer.

This combination of a responsive and robust top sheet that holds it's form plus the impact and noise absorption of the forgiving base layer creates a great fitness flooring solution for spaces where heavy free weights are likely to be dropped like in Olympic lifting spaces (suitable subfloor is essential).

Suitable for high footfall and studio spaces

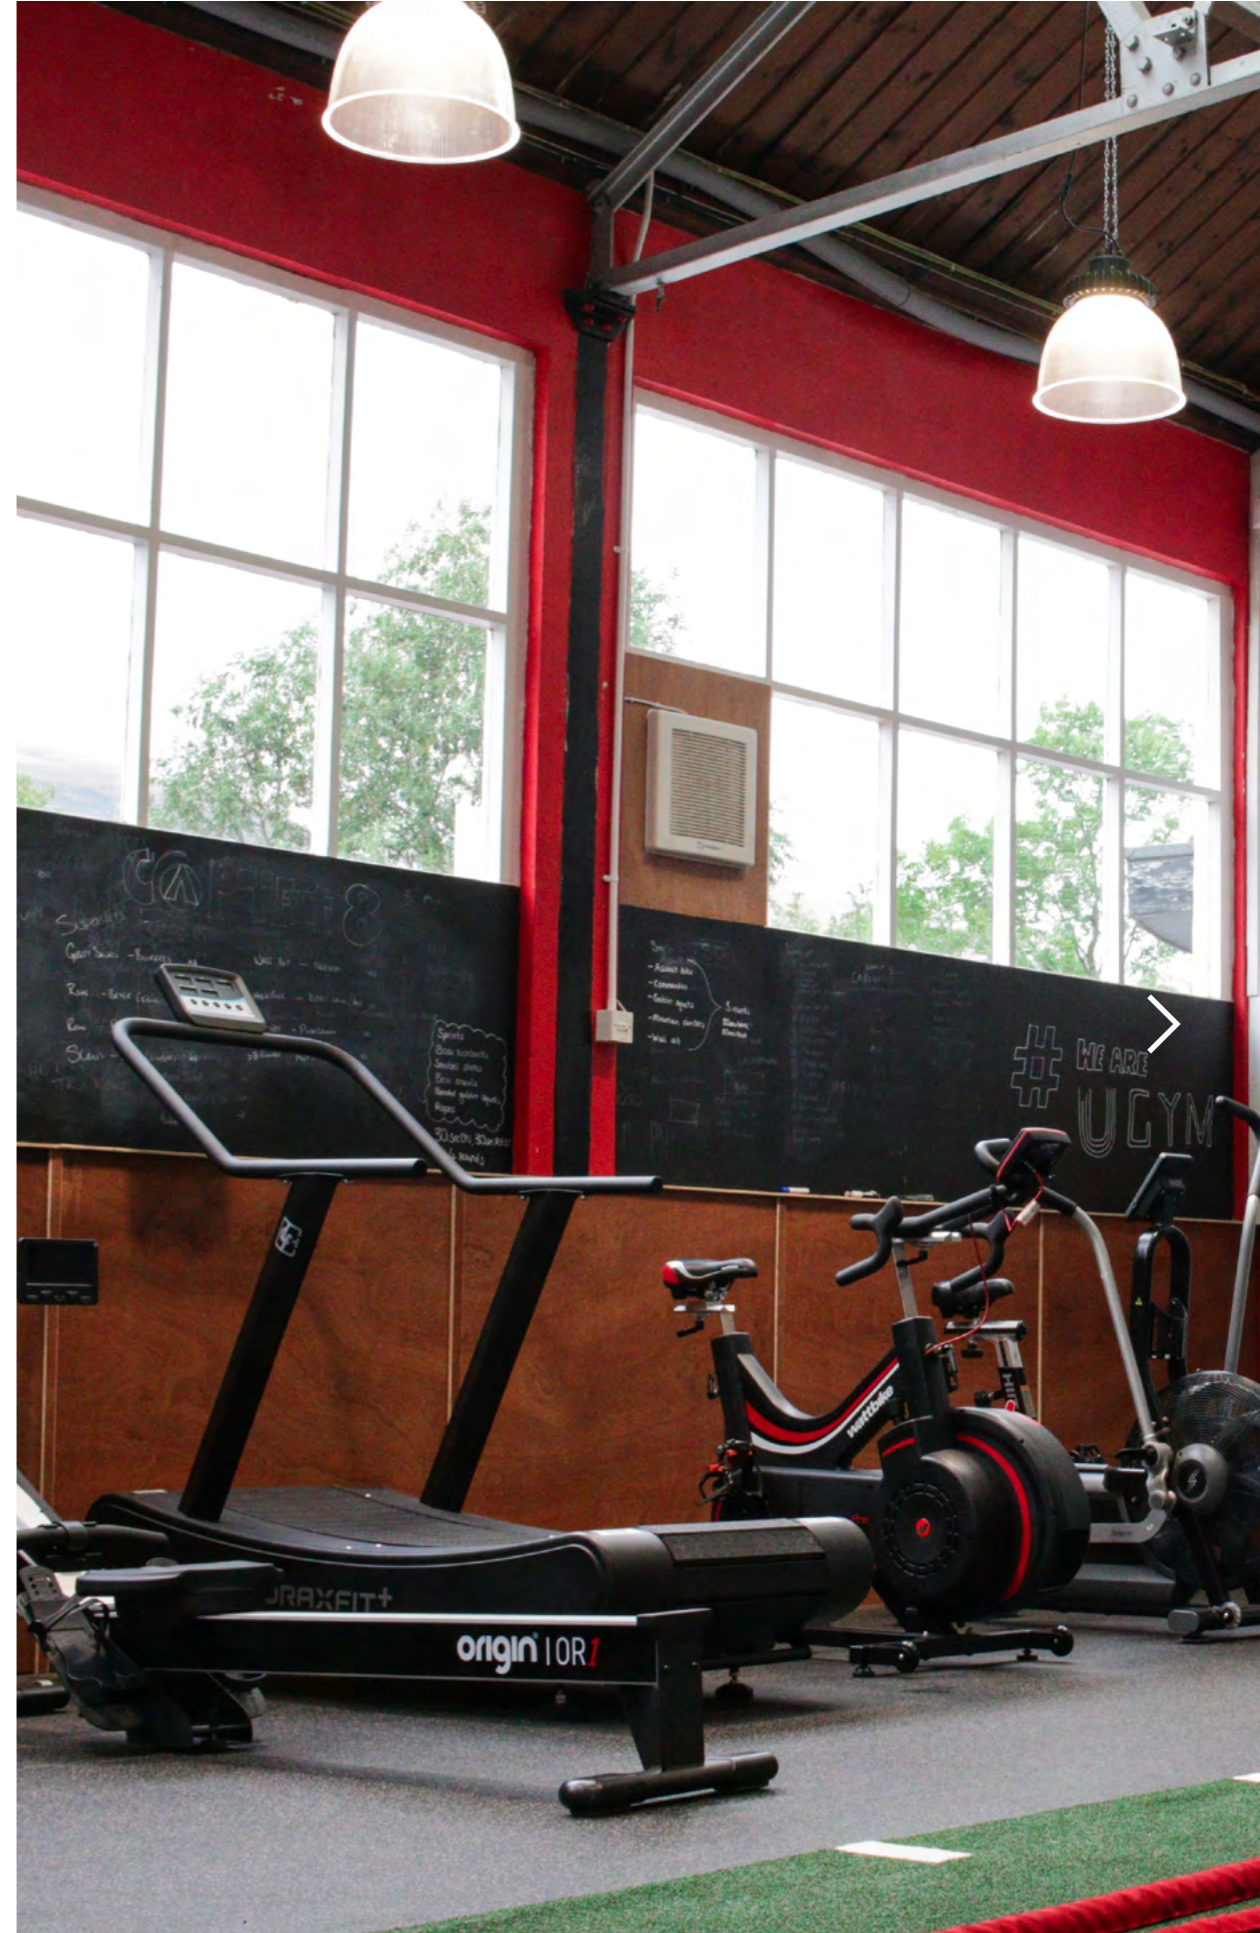

Suitable for cardio zones, dense material allows for easy manoeuvrability

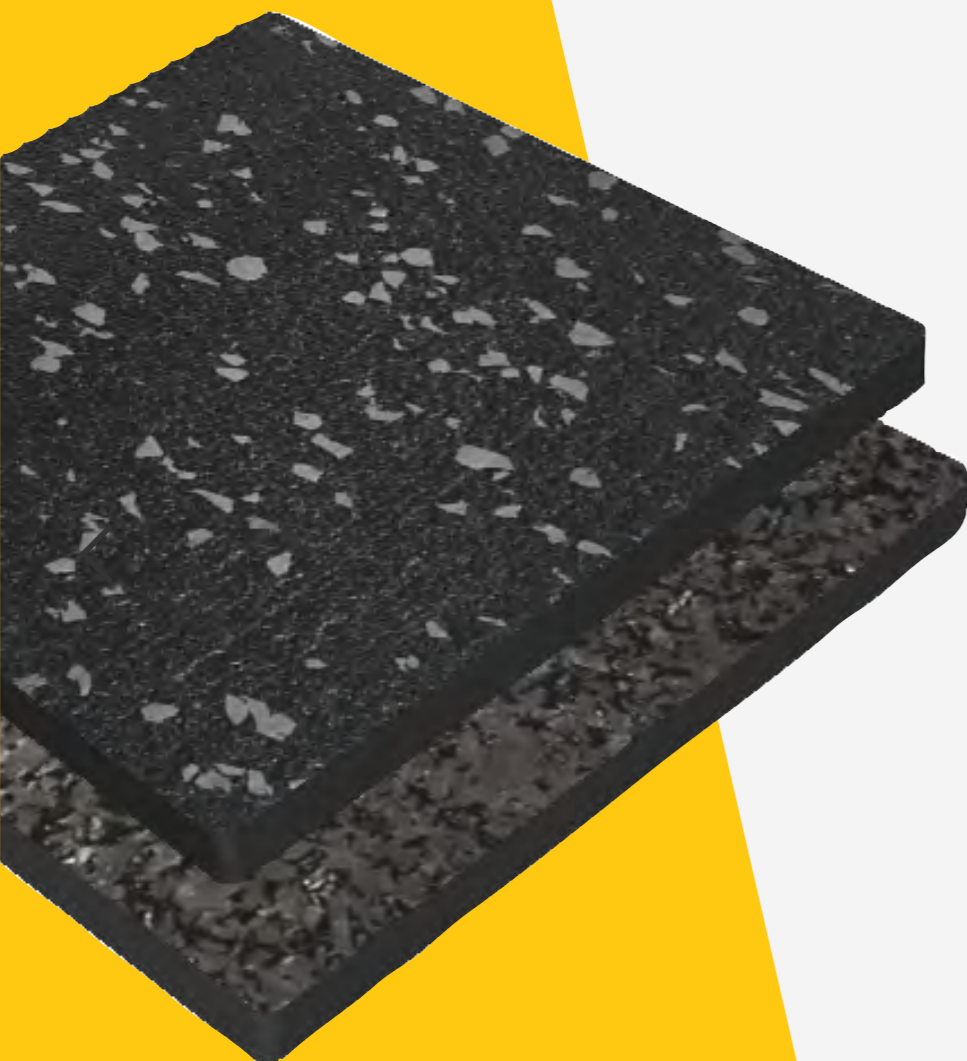

Dual layer system

Noise dampening properties

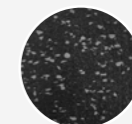

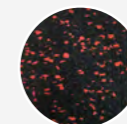

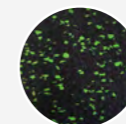

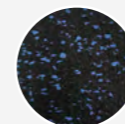

Performance+ Oly System

Commercial Warranty Details	2 Years (Please see full details here)

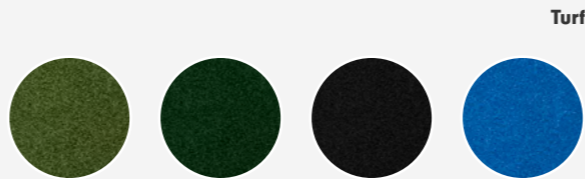

Unlined

The Origin Sprint Track Turf (Unlined) is only available in the colour options below. This turf is supplied with no additional line markings or availability for custom branding.

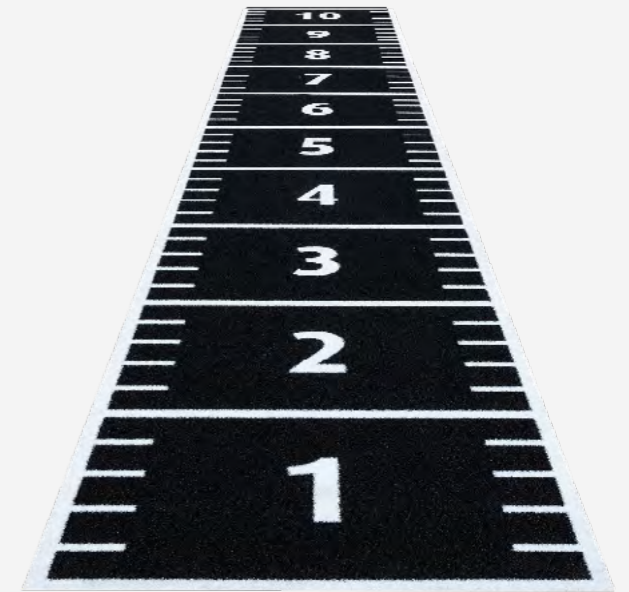

Edge marked

The Origin Sprint Track Turf (Edge Marked) is only available in the colour options below. The line markings are positioned every metre in white. The Start/Finish can be replaced with a logo/type.

Line markings

Full custom

The Origin Sprint Track Turf (Full Custom) boasts a range of colour options for both turf and line markings. Origin has yet to find a track too complex to manufacture.

Classic Sprint Track Turf

This heavy-duty artificial grass has been extensively tested and designed specifically for sport and fitness applications, including the use of prowlers, drag sleds and other common fitness training tools. Unlike the Elite turf, this product comes in lengths up to 15m.

Available in two colours

Suitable for multi-purpose sleds

Flooring Customisation

We offer custom branding on most of our flooring range. Customisation can add help complete a flooring installation and add branding in to your potential space.

We can apply shapes, slogans, logos or designs onto your tiles and rolls. Our team regularly work with trainers to design specific grid systems and layouts that align to your facilities group programming.

Flooring Usage Guide

This usage flooring guide compares all the products in the brochure against their usability.

Vertically we have positioned the products against the usability horizontally. This provides a great overview of where each product is

best suited. Please note that this is our recommendation. The products in the higher end of our range will cater for most of the usability stated below, but it may not be the best product for that scenario. For more advice talk to one of our flooring experts.
